PRESENCE OF THE RACE PARTICIPANTS:

The presence of participants always takes place the day and at place of the event , the beginning of the presence is given by the propositions of the individual event, the presence must be made no later than one hour before the start of the participant's category

- carefully follow the propositions for individual events

The presence of participants in the race rests

- in picking up the start number

- in the signature of the participant or his legal representative on the attendance record

If the participant is not registered ONLINE, it is possible, as a last resort, to register at the day and at the place of the event and pay the entry fee incl. 100% surcharge.

In addition, the competitor's basic data must be communicated when attending - it must be taken into account that entering the participant's data (name, year, club/municipality) is very lengthy and we warn in advance of the possibility of errors by the organizer by rewriting the data into the attendance list and of the subsequent possibility of timekeeper errors by rewriting data from the attendance sheet into the timekeeping program

- neither the organizer nor the timekeeper bears any responsibility for any damage caused due to such errors ... everyone has the option to log in ONLINE and enter the correct data.
